American Journal of Physiology: Gastrointestinal and Liver Physiology

No. 1. JULY 1997

EDITORIAL

The new millennium approaches
M. F. Kagnoff G1

THEMES

Epithelial Cell Growth and Differentiation
I. Intestinal growth factors
D. J. Drucker G3

INVITED REVIEW

GSH transport in mitochondria: defense against TNF-induced oxidative stress and alcohol-induced defect
J. C. Fernández-Checa, N. Kaplowitz, C. García-Ruiz, A. Colell, M. Miranda, M. Marí, E. Ardite, and A. Morales G7

Determinants of triacylglycerol transport from the endoplasmic reticulum to the Golgi in intestine
N. S. Kumar and C. M. Mansbach G18

Mechanisms mediating gastric hyperemic and acid responses to central TRH analog at a cytoprotective dose
Á. Király, G. Sütő, P. H. Guth, and Y. Taché G31

Characterization of ion transport mechanisms regulating intracellular pH in hepatic stellate cells
A. Di Sario, G. S. Baroni, E. Bendia, L. D'Ambrosio, F. Ridolfi, J. R. Marileo, A. M. Jezequel, and A. Benedetti G39

Synaptic inputs to morphologically identified myenteric neurons in guinea pig rectum from pelvic nerves
K. Tamura G49

P-selectin-deficient mice are protected from PAF-induced shock, intestinal injury, and lethality
X. Sun, R. A. Rozenfeld, X. Qu, W. Huang, F. Gonzalez-Crussi, and W. Hsueh G56

Ontogeny and location of HMG-CoA reductase, ACAT, and MGAT in human small intestine
N. Loirdighi, D. Ménard, E. Delvin, and E. Levy G62

5-HT-induced colonic contractions: enteric locus of action and receptor subtypes
S. Graf and S. K. Sarna G68

Enterocytes are the primary source of the chemokine ENA-78 in normal colon and ulcerative colitis
S. Keates, A. C. Keates, E. Mizoguchi, A. Bhan, and C. P. Kelly G75

Developmental expression of SI is regulated in transgenic mice by an evolutionarily conserved promoter
J. Tung, A. J. Markowitz, D. G. Silberg, and P. G. Traber G83

Signal transduction pathways via guanylin and uroguanylin in stomach and intestine
R. M. London, W. J. Krause, X. Fan, S. L. Eber, and L. R. Forte G93

Reciprocal inhibitory paracrine pathways link histamine and somatostatin secretion in the fundus of the stomach
L. Vuyyuru, L. Harrington, A. Arimura, and M. L. Schubert G106

Pancreatic spasmolytic polypeptide protects the gastric mucosa but does not inhibit acid secretion or motility
C. McKenzie, T. Marchbank, R. J. Playford, W. Otto, L. Thim, and M. E. Parsons G112

Effect of cholecystokinin-A receptor blockade on lipid-induced gastric relaxation in humans
M. A. Mesquita, D. G. Thompson, L. E. A. Troncon, M. D'Amato, L. C. Rovati, and J. Barlow G118

Regulation of inducible nitric oxide synthase and nitric oxide during hepatic injury and fibrogenesis
D. C. Rockey and J. J. Chung G124

Ursodeoxycholate inhibits induction of NOS in human intestinal epithelial cells and in vivo
P. Invernizzi, A. L. Salzman, C. Szabó, I. Ueta, M. O'Connor, and K. D. R. Setchell G131

Intestinal absorption of undegraded proteins in men: presence of bromelain in plasma after oral intake
J. V. Castell, G. Friedrich, C.-S. Kuhn, and G. E. Poppe G139

Distribution of ICC and motor response characteristics in urinary bladders reconstructed from human ileum
M. S. Faussone-Pellegrini, S. Serni, and M. Carini G147

Exposure to cigarette smoke delays the plasma clearance of chylomicrons and chylomicron remnants in rats
X.-M. Pan, I. Staprans, D. A. Hardman, and J. H. Rapp G158

Effect of cholestasis on regulation of cAMP synthesis by glucagon and bile acids in isolated hepatocytes
Y. Matsuzaki, B. Bouscarel, M. Le, S. Ceryak, T. W. Gettys, J. Shoda, and H. Fromm G164

Polyamines are important for attachment of IEC-6 cells to extracellular matrix
M. F. Santos, M. J. Viar, S. A. McCormack, and L. R. Johnson G175

Rapid in vivo hydrolysis of fatty acid ethyl esters, toxic nonoxidative ethanol metabolites
M. Saghir, J. Werner, and M. Laposata G184

Calcitonin gene-related peptide in viscerosensitive response to colorectal distension in rats
V. Plourde, S. St.-Pierre, and R. Quirion G191

Glucocorticoids upregulate taurocholate transport by ileal brush-border membrane
M. J. Nowicki, B. L. Shneider, J. M. Paul, and J. E. Heubi G197

Bovine pancreatic duct cells express cAMP- and Ca^{2+}-activated apical membrane Cl^- conductances
L. Al-Nakkash and C. U. Cotton G204

Expression of insulin receptors and of 60-kDa receptor substrate in rat mature and immature enterocytes
J.-P. Buts, N. De Keyser, S. Marandi, A.-S. Maernoudt, E. M. Sokal, J. Rahier, and D. Hermans G217

Nontraditional effects of protein binding and hematocrit on uptake of indocyanine green by perfused rat liver
P. Ott and R. A. Weisiger G227

MODELING IN PHYSIOLOGY

Models for the regulation of purine metabolism in rat hepatocytes: evaluation of tracer kinetic experiments
A. Schwendel, T. Grune, H.-G. Holzhütter, and W. G. Siems G239

RAPID COMMUNICATION

Tyrosine phosphorylation in contraction of opossum esophageal longitudinal muscle in response to SNP
I. Hirano, R. Kakkar, J. K. Saha, P. T. Szymanski, and R. K. Goyal G247

No. 2. AUGUST 1997

THEMES

Epithelial Cell Growth and Differentiation

II. Intestinal apoptosis
C. S. Potten G253

INVITED REVIEW

Intestinal physiology and pathology in gene-targeted mouse models of cystic fibrosis
B. R. Grubb and S. E. Gabriel G258

MUCOSAL BIOLOGY

Expression cloning of NaDC-2, an intestinal Na^+- or Li^+-dependent dicarboxylate transporter
L. Bai and A. M. Pajor G267

Intracellular iron regulates iron absorption and IRP activity in intestinal epithelial (Caco-2) cells
M. Arredondo, A. Orellana, M. A. Gárate, and M. T. Núñez G275

L-type calcium channels regulate gastrin release from human antral G cells
J. M. Ray, P. E. Squires, R. M. Meloche, D. W. Nelson, T. P. Snutch, and A. M. J. Buchan G281

Fatty acid regulation of fatty acid-binding protein expression in the small intestine
H. Poirier, I. Niot, P. Degrace, M.-C. Monnot, A. Bernard, and P. Besnard G289

Biosynthesis of mucins (MUC2–6) along the longitudinal axis of the human gastrointestinal tract
B. J.-W. van Klinken, J. Dekker, H. A. Büller, C. de Bolòs, and A. W. C. Einerhand G296

Survival of human pancreatic enzymes during small bowel transit: effect of nutrients, bile acids, and enzymes
G. Holtmann, D. G. Kelly, B. Sternby, and E. P. DiMagno G553

Prevention of parenteral nutrition-induced gut hypoplasia by coinfusion of glucagon-like peptide-2 **(Rapid Communication)**
W. T. Chance, T. Foley-Nelson, I. Thomas, and A. Balasubramaniam G559

INFLAMMATION/IMMUNITY/MEDIATORS

Gut ischemia and mesenteric synthesis of inflammatory cytokines after hemorrhagic or endotoxic shock
F. Tamion, V. Richard, S. Lyoumi, M. Daveau, G. Bonmarchand, J. Leroy, C. Thuillez, and J.-P. Lebreton G314

Human hepatocytes express an array of proinflammatory cytokines after agonist stimulation or bacterial invasion
D. L. Rowell, L. Eckmann, M. B. Dwinell, S. P. Carpenter, J. L. Raucy, S.-K. Yang, and M. F. Kagnoff G322

IL-11 inhibits *Clostridium difficile* toxin A enterotoxicity in rat ileum
I. Castagliuolo, C. P. Kelly, B. S. Qiu, S. T. Nikulasson, J. T. LaMont, and C. Pothoulakis G333

Exogenous xanthine promotes neutrophil adherence to cultured endothelial cells
H. Ichikawa, R. E. Wolf, T. Y. Aw, N. Ohno, L. Coe, D. N. Granger, T. Yoshikawa, and J. S. Alexander G342

Trefoil peptide expression and secretion is regulated by neuropeptides and acetylcholine
H. Ogata and D. K. Podolsky G348

Dietary diosgenin attenuates subacute intestinal inflammation associated with indomethacin in rats
T. Yamada, M. Hoshino, T. Hayakawa, H. Ohhara, H. Yamada, T. Nakazawa, T. Inagaki, M. Iida, T. Ogasawara, A. Uchida, C. Hasegawa, G. Murasaki, M. Miyaji, A. Hirata, and T. Takeuchi G355

HORMONES AND SIGNALING

Protective action of gastrin-17 against alcohol-induced gastric injury in the rat: role in mucosal defense
D. W. Mercer, J. M. Cross, G. S. Smith, and T. A. Miller G365

Regulation of gastric and pancreatic lipase secretion by CCK and cholinergic mechanisms in humans
J. Borovicka, W. Schwizer, C. Mettraux, C. Kreiss, B. Remy, K. Asal, J. B. M. J. Jansen, I. Douchet, R. Verger, and M. Fried G374

CCK-8 infusion increases plasma LMW alkaline phosphatase coincident with enterohepatic circulation of bile acids
P. F. Solter, W. E. Hoffmann, M. D. Chambers, and D. J. Schaeffer G381

Increased expression of EGFR in gastric mucosa of aged rats
J. Tureaud, F. H. Sarkar, S. E. G. Fligiel, S. Kulkarni, R. Jaszewski, K. Reddy, Y. Yu, and A. P. N. Majumdar G389

Inhibition of sham feeding-stimulated acid secretion in dogs by immunoneutralization of gastrin
T. O. G. Kovacs, K. C. K. Lloyd, D. C. Lawson, T. N. Pappas, and J. H. Walsh G399

NEUROREGULATION AND MOTILITY

Motilin and OHM-11526 activate a calcium current in human and canine jejunal circular smooth muscle
G. Farrugia, M. J. Macielag, T. L. Peeters, M. G. Sarr, A. Galdes, and J. H. Szurszewski G404

Chronic rejection causes early destruction of the intrinsic nervous system in rat intestinal transplants
P. F. Heeckt, W. Halfter, W. H. Schraut, and A. J. Bauer G413

Analysis of the responses of myenteric neurons in the small intestine to chemical stimulation of the mucosa
P. P. Bertrand, W. A. A. Kunze, J. C. Bornstein, J. B. Furness, and M. L. Smith G422

PACAP-(1—38) as neurotransmitter in pig pancreas: receptor activation revealed by the antagonist PACAP-(6—38)
K. Tørnøe, J. Hannibal, J. Fahrenkrug, and J. J. Holst G436

Role of sensory afferents in the myoelectric response to acute enteric inflammation in the rabbit
T. Shea-Donohue, J. M. Goldhill, E. Montcalm-Mazzilli, C. Colleton, V. M. Piñeiro-Carrero, and R. W. Sjogren G447

Nitric oxide as modulator of cholinergic neurotransmission in gastric muscle of rabbits
M. C. Baccari, C. Iacoviello, and F. Calamai G456

Gastrogastric reflexes regulating gastric tone and their relationship to perception
N. Villanova, F. Azpiroz, and J.-R. Malagelada G464

Correlation of electrical and contractile activities of the cricopharyngeus muscle in the cat
B. K. Medda, I. M. Lang, W. J. Dodds, M. Christl, M. Kern, W. J. Hogan, and R. Shaker G470

Tapeworm infection decreases intestinal transit and enteric aerobic bacterial populations
M. B. Dwinell, P. Bass, D. M. Schaefer, and J. A. Oaks G480

Cholinergic nerves mediate stress-induced intestinal transport abnormalities in Wistar-Kyoto rats
P. R. Saunders, N. P. M. Hanssen, and M. H. Perdue G486

Inhibition of mechanical activity by neurotensin in rat proximal colon: involvement of nitric oxide
F. Mulè and R. Serio G491

Nuclear Fos immunoreactivity in guinea pig myenteric neurons following activation of motor activity
R. C. Ritter, M. Costa, and S. H. Brookes G498

LIVER AND BILIARY TRACT

Role of kinases and phosphatases in the regulation of fluid secretion and Cl^-/HCO_3^- exchange in cholangiocytes
D. Alvaro, A. Mennone, and J. L. Boyer G303

Identification of a bile acid response element in the cholesterol 7α-hydroxylase gene *CYP7A*
D. Stroup, M. Crestani, and J. Y. L. Chiang G508

Bile acids stimulate proliferative and secretory events in large but not small cholangiocytes
G. Alpini, S. Glaser, W. Robertson, J. L. Phinizy, R. E. Rodgers, A. Caligiuri, and G. LeSage G518

Inhibition of nitric oxide synthesis improves detoxication in inflammatory liver dysfunction in vivo
A. Veihelmann, T. Brill, M. Blobner, I. Scheller, B. Mayer, M. Prölls, S. Himpel, and J. Stadler G530

Potassium currents in atrial and ventricular myocytes from a rat model of cirrhosis
C. A. Ward, Z. Ma, S. S. Lee, and W. R. Giles G537

Gene transfer into hepatoma cell lines via the serpin enzyme complex receptor
A.-G. Ziady, J. C. Perales, T. Ferkol, T. Gerken, H. Beegen, D. H. Perlmutter, and P. B. Davis G545

No. 3. SEPTEMBER 1997

THEMES

Epithelial Cell Growth and Differentiation

III. Promoting diversity in the intestine: conversations between the microflora, epithelium, and diffuse GALT
J. I. Gordon, L. V. Hooper, M. S. McNevin, M. Wong, and L. Bry G565

INVITED REVIEWS

Molecular biology of Na^+ absorption
P. Barbry and P. Hofman G571

Turning off the signal: mechanisms that attenuate signaling by G protein-coupled receptors
E. F. Grady, S. K. Böhm, and N. W. Bunnett G586

Cellular adhesion molecules: regulation and functional significance in the pathogenesis of liver diseases
H. Jaeschke G602

MUCOSAL BIOLOGY

Role of lipase in the regulation of upper gastrointestinal function in humans
W. Schwizer, K. Asal, C. Kreiss, C. Mettraux, J. Borovicka, B. Rémy, C. Güzelhan, D. Hartmann, and M. Fried G612

Ferritin gene expression and transferrin receptor activity in intestine of rats with varying iron stores
P. S. Oates and E. H. Morgan G636

Effects of luminal hypertonicity on rabbit esophageal epithelium
J. D. Long, E. Marten, N. A. Tobey, and R. C. Orlando G647

Ontogeny of intestinal adaptation in rats in response to isocaloric changes in dietary lipids
N. Perin, M. Keelan, E. Jarocka-Cyrta, M. T. Clandinin, and A. B. R. Thomson G713

A new device for monitoring gastric pH in free-ranging animals **(Special Communication)**
G. Peters G748

INFLAMMATION/IMMUNITY/MEDIATORS

Endogenous but not exogenous nitric oxide decreases TNF-α-induced leukocyte rolling
P. Kubes, E. Sihota, and M. J. Hickey G628

Expression of oxidative stress-responsive genes and cytokine genes during caerulein-induced acute pancreatitis
K. Fu, M. P. Sarras, Jr., R. C. De Lisle, and G. K. Andrews G696

Lipopolysaccharide activates the muscularis macrophage network and suppresses circular smooth muscle activity
M. K. Eskandari, J. C. Kalff, T. R. Billiar, K. K. W. Lee, and A. J. Bauer G727

HORMONES AND SIGNALING

MgATP acts before Ca^{2+} to prime amylase secretion from permeabilized rat pancreatic acini
P. J. Padfield and N. Panesar G655

High-affinity CCK-A receptors on the vagus nerve mediate CCK-stimulated pancreatic secretion in rats
Y. Li, Y. Hao, and C. Owyang G679

Bombesin-like peptides stimulate somatostatin release from rat fundic D cells in primary culture
K. Schaffer, H. Herrmuth, J. Mueller, D. H. Coy, H. C. Wong, J. H. Walsh, M. Classen, V. Schusdziarra, and W. Schepp G686

Cholecystokinin peptides stimulate pancreatic secretion by multiple signal transduction pathways
H. Yoshida, Y. Tsunoda, and C. Owyang G735

An amino-terminal fragment of LCRF, LCRF-(1—35), has the same activity as the natural peptide **(Rapid Communication)**
A. W. Spannagel, J. R. Reeve, Jr., R. A. Liddle, D. Guan, and G. M. Green G754

NEUROREGULATION AND MOTILITY

Limited excitatory local effector function of gastric vagal afferent intraganglionic terminals in rats
H. Zheng, A. Lauve, L. M. Patterson, and H.-R. Berthoud G661

Characterization of neurokinin-1 receptors in the submucosal plexus of guinea pig ileum
B. A. Moore, S. Vanner, N. W. Bunnett, and K. A. Sharkey G670

Effects of duodenal nutrients on sensory and motor responses of the human stomach to distension
C. Feinle, D. Grundy, and N. W. Read G721

LIVER AND BILIARY TRACT

Regulation of hepatocyte bile salt transporters during hepatic regeneration
R. M. Green, J. L. Gollan, B. Hagenbuch, P. J. Meier, and D. R. Beier G621

Group II phospholipase A_2 gene expression is transcriptionally regulated in rat liver during sepsis
L.-W. Dong, J. Yang, L.-J. Tong, H.-K. Hsu, and M.-S. Liu G706

No. 4. OCTOBER 1997

THEMES

Epithelial Cell Growth and Differentiation

IV. Controlled spatiotemporal expression of transgenes: new tools to study normal and pathological states
S. Robine, F. Jaisser, and D. Louvard G759

Cell Adhesion and Migration

I. Neutrophil adhesive interactions with intestinal epithelium
C. A. Parkos G763

INVITED REVIEW

Intestinal inflammation: a complex interplay of immune and nonimmune cell interactions
C. Fiocchi G769

MUCOSAL BIOLOGY

Oxidant-induced disruption of intestinal epithelial barrier function: role of protein tyrosine phosphorylation
R. K. Rao, R. D. Baker, S. S. Baker, A. Gupta, and M. Holycross G812

Epithelial cell kinase-B61: an autocrine loop modulating intestinal epithelial migration and barrier function
I. M. Rosenberg, M. Göke, M. Kanai, H.-C. Reinecker, and D. K. Podolsky G824

Use of measurements of ethanol absorption from stomach and intestine to assess human ethanol metabolism
M. D. Levitt, R. Li, E. G. DeMaster, M. Elson, J. Furne, and D. G. Levitt G951

Glucose and glutamine provide similar proportions of energy to mucosal cells of rat small intestine **(Special Communication)**
S. E. Fleming, K. L. Zambell, and M. D. Fitch G968

INFLAMMATION/IMMUNITY/MEDIATORS

Ca^{2+} channel blockade by verapamil inhibits GMCs and diarrhea during small intestinal inflammation
C.-W. Lee, S. K. Sarna, C. Singaram, and M. A. Casper G785

Mechanism of inhibition of Na^+-glucose cotransport in the chronically inflamed rabbit ileum
U. Sundaram, S. Wisel, V. M. Rajendren, and A. B. West G913

Caerulein pancreatitis increases mRNA but reduces protein levels of rat pancreatic heat shock proteins
M. Z. Strowski, G. Sparmann, H. Weber, F. Fiedler, H. Printz, L. Jonas, B. Göke, and A. C. C. Wagner G937

HORMONES AND SIGNALING

IGF-I induces collagen and IGFBP-5 mRNA in rat intestinal smooth muscle
E. M. Zimmermann, L. Li, Y. T. Hou, M. Cannon, G. M. Christman, and K. N. Bitar G875

Molecular mechanisms for the growth factor action of gastrin
A. Todisco, Y. Takeuchi, A. Urumov, J. Yamada, V. M. Stepan, and T. Yamada G891

Effects of a panel of dietary lectins on cholecystokinin release in rats
M. Jordinson, R. J. Playford, and J. Calam G946

NEUROREGULATION AND MOTILITY

In vitro analysis of rat intestinal wall movements at rest and during propagated contraction: a new method
T. Benard, M. Bouchoucha, M. Dupres, and P.-H. Cugnenc G776

Characterization of the pharyngo-UES contractile reflex in humans
R. Shaker, J. Ren, P. Xie, I. M. Lang, E. Bardan, and Z. Sui G854

Effect of acute hyperglycemia on colorectal motor and sensory function in humans
D. Maleki, M. Camilleri, A. R. Zinsmeister, and R. A. Rizza G859

Morphometry and strain distribution in guinea pig duodenum with reference to the zero-stress state
H. Gregersen, G. Kassab, E. Pallencaoe, C. Lee, S. Chien, R. Skalak, and Y. C. Fung G865

Glucagon-like peptide-1 inhibits gastric emptying via vagal afferent-mediated central mechanisms
N. İmeryüz, B. Ç. Yeğen, A. Bozkurt, T. Coşkun, M. L. Villanueva-Peñacarrillo, and N. B. Ulusoy G920

Acute experimental colitis decreases colonic circular smooth muscle contractility in rats
B. S. Myers, J. S. Martin, D. T. Dempsey, H. P. Parkman, R. M. Thomas, and J. P. Ryan G928

Dynamics of esophageal bolus transport in healthy subjects studied using multiple intraluminal impedancometry
H. N. Nguyen, J. Silny, D. Albers, E. Roeb, C. Gartung, G. Rau, and S. Matern G958

LIVER AND BILIARY TRACT

Hydrogen peroxide-induced liver cell necrosis is dependent on AP-1 activation
Y. Xu, C. Bradham, D. A. Brenner, and M. J. Czaja G795

Fibronectin and cytokines increase JNK, ERK, AP-1 activity, and transin gene expression in rat hepatic stellate cells
J. E. Poulos, J. D. Weber, J. M. Bellezzo, A. M. Di Bisceglie, R. S. Britton, B. R. Bacon, and J. J. Baldassare G804

Hepatocyte nuclear factor-1α regulates transcription of the guanylin gene
J. A. Hochman, D. Sciaky, T. L. Whitaker, J. A. Hawkins, and M. B. Cohen G833

cAMP increases liver Na^+-taurocholate cotransport by translocating transporter to plasma membranes
S. Mukhopadhayay, M. Ananthanarayanan, B. Stieger, P. J. Meier, F. J. Suchy, and M. S. Anwer G842

Alanine uptake activates hepatocellular chloride channels
S. D. Lidofsky and R. M. Roman G849

Responsiveness to growth factors in aortic vascular smooth muscle cells from rats with cirrhosis
K. A. Tazi, C. Trombino, R. Moreau, and D. Lebrec G883

Regulation of hepatic enzymes and insulin levels in offspring of rat dams fed a reduced-protein diet
M. Desai, C. D. Byrne, K. Meeran, N. D. Martenz, S. R. Bloom, and C. N. Hales G899

Control of rate and extent of the proliferative response after partial hepatectomy
L. Lambotte, A. Saliez, S. Triest, E. M. Tagliaferri, A. P. Barker, and A. G. Baranski G905

Demonstration of changes in fetal liver erythropoiesis using echo-planar magnetic resonance imaging **(Special Communication)**
K. R. Duncan, P. N. Baker, P. A. Gowland, B. Issa, R. Moore, B. Worthington, and I. R. Johnson G965

No. 5. NOVEMBER 1997

THEMES

Epithelial Cell Growth and Differentiation

V. Transcriptional regulation, development, and neoplasia of the intestinal epithelium
P. G. Traber G979

Cell Adhesion and Migration

II. Leukocyte-endothelial cell adhesion in the digestive system
D. N. Granger G982

INVITED REVIEW

Novel insights into histamine H_2 receptor biology
J. Del Valle and I. Gantz G987

MUCOSAL BIOLOGY

Identification and functional assay of an extracellular calcium-sensing receptor in *Necturus* gastric mucosa
R. R. Cima, I. Cheng, M. E. Klingensmith, N. Chattopadhyay, O. Kifor, S. C. Hebert, E. M. Brown, and D. I. Soybel G1051

Role of maxi-K^+ channels in endothelin-induced vasoconstriction of mesenteric and submucosal arterioles
C. E. Hill, A. Kirton, D. D. Wu, and S. J. Vanner G1087

Cellular pathways mediating tachykinin-evoked secretomotor responses in guinea pig ileum
W. MacNaughton, B. Moore, and S. Vanner G1127

Outwardly rectifying Cl^- channel in guinea pig small intestinal villus enterocytes: effect of inhibitors
A. S. Monaghan, G. M. Mintenig, and F. V. Sepúlveda G1141

INFLAMMATION/IMMUNITY/MEDIATORS

Epidermal growth factor attenuates *Clostridium difficile* toxin A- and B-induced damage of human colonic mucosa
M. Riegler, R. Sedivy, T. Sogukoglu, I. Castagliuolo, C. Pothoulakis, E. Cosentini, G. Bischof, G. Hamilton, B. Teleky, W. Feil, J. T. Lamont, and E. Wenzl G1014

α_1-Acid glycoprotein reduces local and remote injuries after intestinal ischemia in the rat
J. P. Williams, M. R. Weiser, T. T. V. Pechet, L. Kobzik, F. D. Moore, Jr., and H. B. Hechtman G1031

Nitric oxide production during *Vibrio cholerae* infection
E. N. Janoff, H. Hayakawa, D. N. Taylor, C. E. Fasching, J. R. Kenner, E. Jaimes, and L. Raij G1160

HORMONES AND SIGNALING

Gastrin inhibits secretin-induced ductal secretion by interaction with specific receptors on rat cholangiocytes
S. S. Glaser, R. E. D. Rodgers, J. L. Phinizy, W. E. Robertson, J. Lasater, A. Caligiuri, Z. Tretjak, G. D. LeSage, and G. Alpini G1061

Neurokinin A increases duodenal mucosal permeability, bicarbonate secretion, and fluid output in the rat
A. Hällgren, G. Flemström, P. M. Hellström, M. Lördal, S. Hellgren, and O. Nylander G1077

Differential activation of the Stat signaling pathway in the liver after burn injury
S. Wang, S. E. Wolf, and B. M. Evers G1153

NEUROREGULATION AND MOTILITY

Adrenergic modulation of human colonic motor and sensory function
A. E. Bharucha, M. Camilleri, A. R. Zinsmeister, and R. B. Hanson G997

Neuronal release of endogenous dopamine from corpus of guinea pig stomach
K. Shichijo, Y. Sakurai-Yamashita, I. Sekine, and K. Taniyama G1044

Influence of altered tongue contour and position on deglutitive pharyngeal and UES function
G. N. Ali, I. J. Cook, T. M. Laundl, K. L. Wallace, and D. J. de Carle G1071

Induction of nitric oxide synthase in rat gastric smooth muscle preparations
X.-L. Zheng, K. A. Sharkey, and M. D. Hollenberg G1101

α_2-Adrenergic modulation of colonic tone during hyperventilation
A. E. Bharucha, V. Novak, M. Camilleri, A. R. Zinsmeister, R. B. Hanson, and P. A. Low G1135

LIVER AND BILIARY TRACT

Role of nitric oxide in gut ischemia-reperfusion-induced hepatic microvascular dysfunction
Y. Horie, R. Wolf, and D. N. Granger G1007

Enterohepatic circulation of scymnol sulfate in an elasmobranch, the little skate (*Raja erinacea*)
G. Fricker, R. Wössner, J. Drewe, R. Fricker, and J. L. Boyer G1023

Endothelin-1 selectively contracts portal vein through both ET_A and ET_B receptors in isolated rabbit liver
H.-G. Wang, T. Shibamoto, and T. Miyahara G1036

Pentoxifylline blocks hepatic stellate cell activation independently of phosphodiesterase inhibitory activity
K. S. Lee, H. B. Cottam, K. Houglum, D. B. Wasson, D. Carson, and M. Chojkier G1094

Regulation of biliary secretion through apical purinergic receptors in cultured rat cholangiocytes
T. Schlenker, J. M.-J. Romac, A. I. Sharara, R. M. Roman, S. J. Kim, N. LaRusso, R. A. Liddle, and J. G. Fitz G1108

pH-dependent changes of nitric oxide, peroxynitrite, and reactive oxygen species in hepatocellular damage
Z. Shu, M. Jung, H.-G. Beger, M. Marzinzig, F. Han, U. Butzer, U. B. Bruckner, and A. K. Nussler G1118

No. 6. DECEMBER 1997

THEMES

Cell Adhesion and Migration

III. Leukocyte adhesion and transmigration in the liver vasculature
H. Jaeschke and C. W. Smith G1169

INVITED REVIEWS

Physiology and pathophysiology of apoptosis in epithelial cells of the liver, pancreas, and intestine
B. A. Jones and G. J. Gores G1174

Endothelial cell monolayers as a tool for studying microvascular pathophysiology
P. R. Kvietys and D. N. Granger G1189

MUCOSAL BIOLOGY

Amino acid use by the gastrointestinal tract of sheep given lucerne forage
J. C. MacRae, L. A. Bruce, D. S. Brown, and A. G. Calder G1200

Phenylalanine utilization by the gut and liver measured with intravenous and intragastric tracers in pigs
B. Stoll, D. G. Burrin, J. Henry, F. Jahoor, and P. J. Reeds G1208

Reduction of shock-induced gastric damage by a nitric oxide-releasing aspirin derivative: role of neutrophils
J. L. Wallace, W. McKnight, T. L. Wilson, P. Del Soldato, and G. Cirino G1246

Intestinal response to growth factors administered alone or in combination with human [Gly^2]glucagon-like peptide 2
D. J. Drucker, L. DeForest, and P. L. Brubaker G1252

Adult human colonic subepithelial myofibroblasts express extracellular matrix proteins and cyclooxygenase-1 and -2
Y. R. Mahida, J. Beltinger, S. Makh, M. Göke, T. Gray, D. K. Podolsky, and C. J. Hawkey G1341

Translocation of verotoxin-1 across T84 monolayers: mechanism of bacterial toxin penetration of epithelium
D. J. Philpott, C. A. Ackerley, A. J. Kiliaan, M. A. Karmali, M. H. Perdue, and P. M. Sherman G1349

INFLAMMATION/IMMUNITY/MEDIATORS

Dexamethasone suppresses iNOS gene expression by upregulating I-κBα and inhibiting NF-κB
M. E. De Vera, B. S. Taylor, Q. Wang, R. A. Shapiro, T. R. Billiar, and D. A. Geller G1290

Opposing effects of L-NAME on capillary filtration rate in the presence or absence of neutrophils
N. R. Harris G1320

Modulation of P-selectin expression in the postischemic intestinal microvasculature
M. J. Eppihimer, J. Russell, D. C. Anderson, C. J. Epstein, S. Laroux, and D. N. Granger G1326

IL-8 release and neutrophil activation by *Clostridium difficile* toxin-exposed human monocytes
J. K. Linevsky, C. Pothoulakis, S. Keates, M. Warny, A. C. Keates, J. T. Lamont, and C. P. Kelly G1333

HORMONES AND SIGNALING

Protein tyrosine phosphorylation in pancreatic acini: differential effects of VIP and CCK
M. P. Lutz, A. Piiper, H. Y. Gaisano, D. Stryjek-Kaminska, S. Zeuzem, and G. Adler G1226

Functional role of extracellular signal-regulated protein kinases in gastric acid secretion
Y. Takeuchi, J. Yamada, T. Yamada, and A. Todisco G1263

NEUROREGULATION AND MOTILITY

Inflammation modulates in vitro colonic myoelectric and contractile activity and interstitial cells of Cajal
G. Lu, X. Qian, I. Berezin, G. L. Telford, J. D. Huizinga, and S. K. Sarna G1233

Guinea pig pancreatic neurons: morphology, neurochemistry, electrical properties, and response to 5-HT
M.-T. Liu and A. L. Kirchgessner G1273

Activity-dependent changes in intracellular calcium in myenteric neurons **(Rapid Communication)**
M. Hanani and N. Lasser-Ross G1359

LIVER AND BILIARY TRACT

Stenosis of a portacaval anastomosis affects circadian locomotor activity in the rat: a multivariable analysis
J. Córdoba, J. Dupuis, J. Gottstein, and A. T. Blei G1218

Adenosine kinase inhibitor GP515 attenuates hepatic leukocyte adhesion after hemorrhagic hypotension
C. Bauer, M. G. Bouma, I. Herrmann, F. A. J. M. van den Wildenberg, G. S. Firestein, I. Marzi, and W. A. Buurman G1297

Role of glutathione and catalase in H_2O_2 detoxification in LPS-activated hepatic endothelial and Kupffer cells
Z. Spolarics and J.-X. Wu G1304

Evidence for an ATP-independent long-chain phosphatidylcholine translocator in hepatocyte membranes
M. Fuchs, M. C. Carey, and D. E. Cohen G1312

Subject Index to Volume 36 G1365
